Subject: Sen Kotowski/O'Hare noise

Illinois' Division of Aeronautics is not involved in the decision making of facilities/homes located near airports that are eligible for soundproofing. Grants are issued through the Federal Aviation Authority, and Mr. Jim Keefer, Manager of FAA's Chicago Airports District Office, would be able to assist Senator Kotowski with procedures/requirements. Jim may be reached at 847-294-7335.

"Dear Sir--What can be done about outbound O'Hare flights that leave at all hours of the day (and night!), on a NE vector that disturb the sleep of thousands of PR residents? Why can't they take off straight East? The situation is intolerable. And it is getting progressively worse.

Dorothy Deany
